About datawise

About

We specialise in crafting dynamic dashboards and managing data pipelines for businesses. We provide real-time insights and seamless data flow, empowering clients to make informed decisions and drive growth.

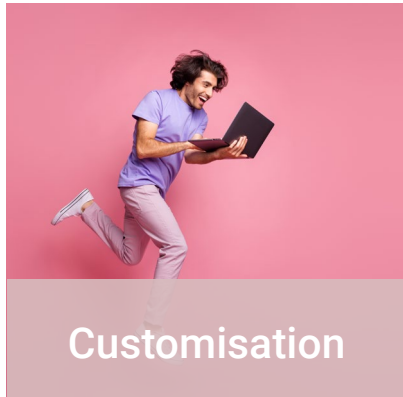

Partner with us to unlock the full potential of your data and stay ahead of the competition.

Key features of datawise;

- Customisation
- Real-time data
- Visualisations
- Drill-down capability
- Integration
- Security
- Performance metrics
- User-friendly interface

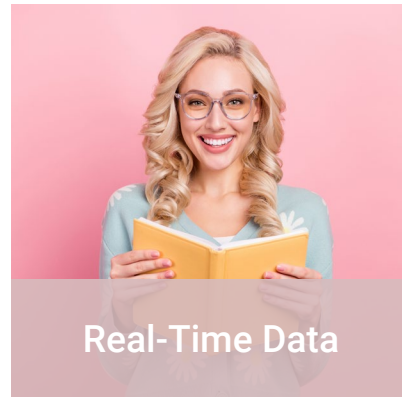

Key features

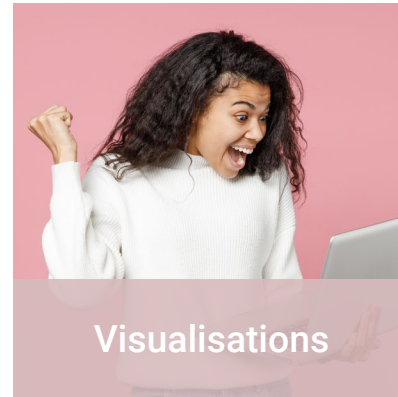

Customisation

Tailored dashboards designed to meet the specific needs and objectives of your business.

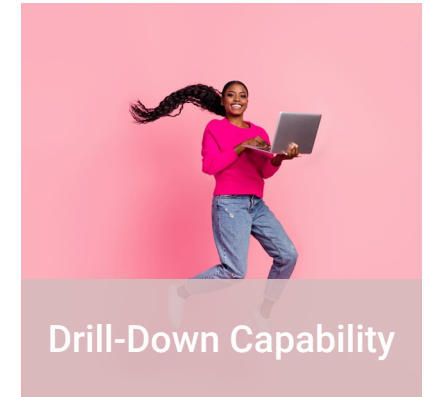

Real-Time Data

Access to up-to-date information, allowing for timely decision-making and quick response to changes.

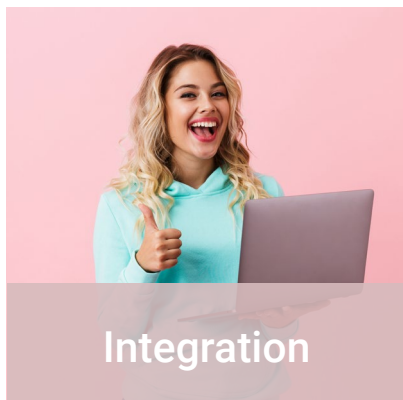

Visualisations

Clear and intuitive visual representations of data through charts, graphs, and other interactive elements.

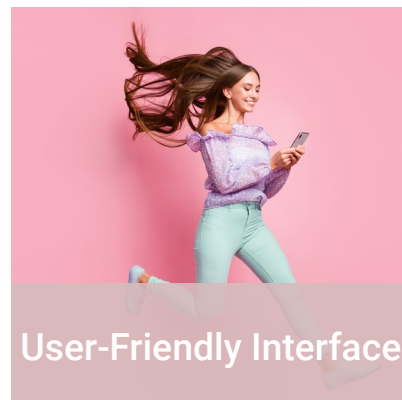

Drill-Down Capability

Ability to drill down into specific data points for deeper analysis and understanding.

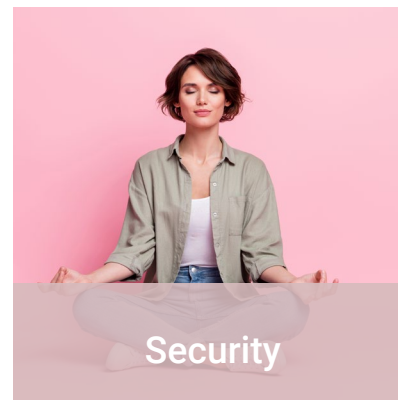

Integration

Seamless integration with various data sources and systems within your organization.

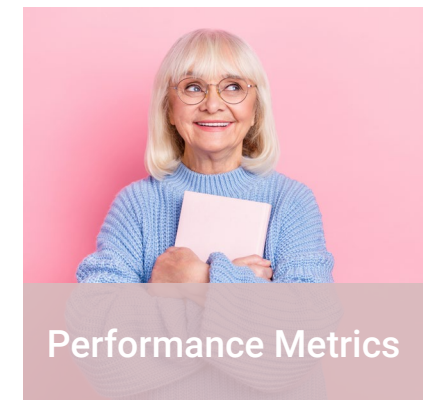

User-Friendly Interface

Intuitive interface that is easy to navigate, making it accessible to users at all levels of technical proficiency.

Security

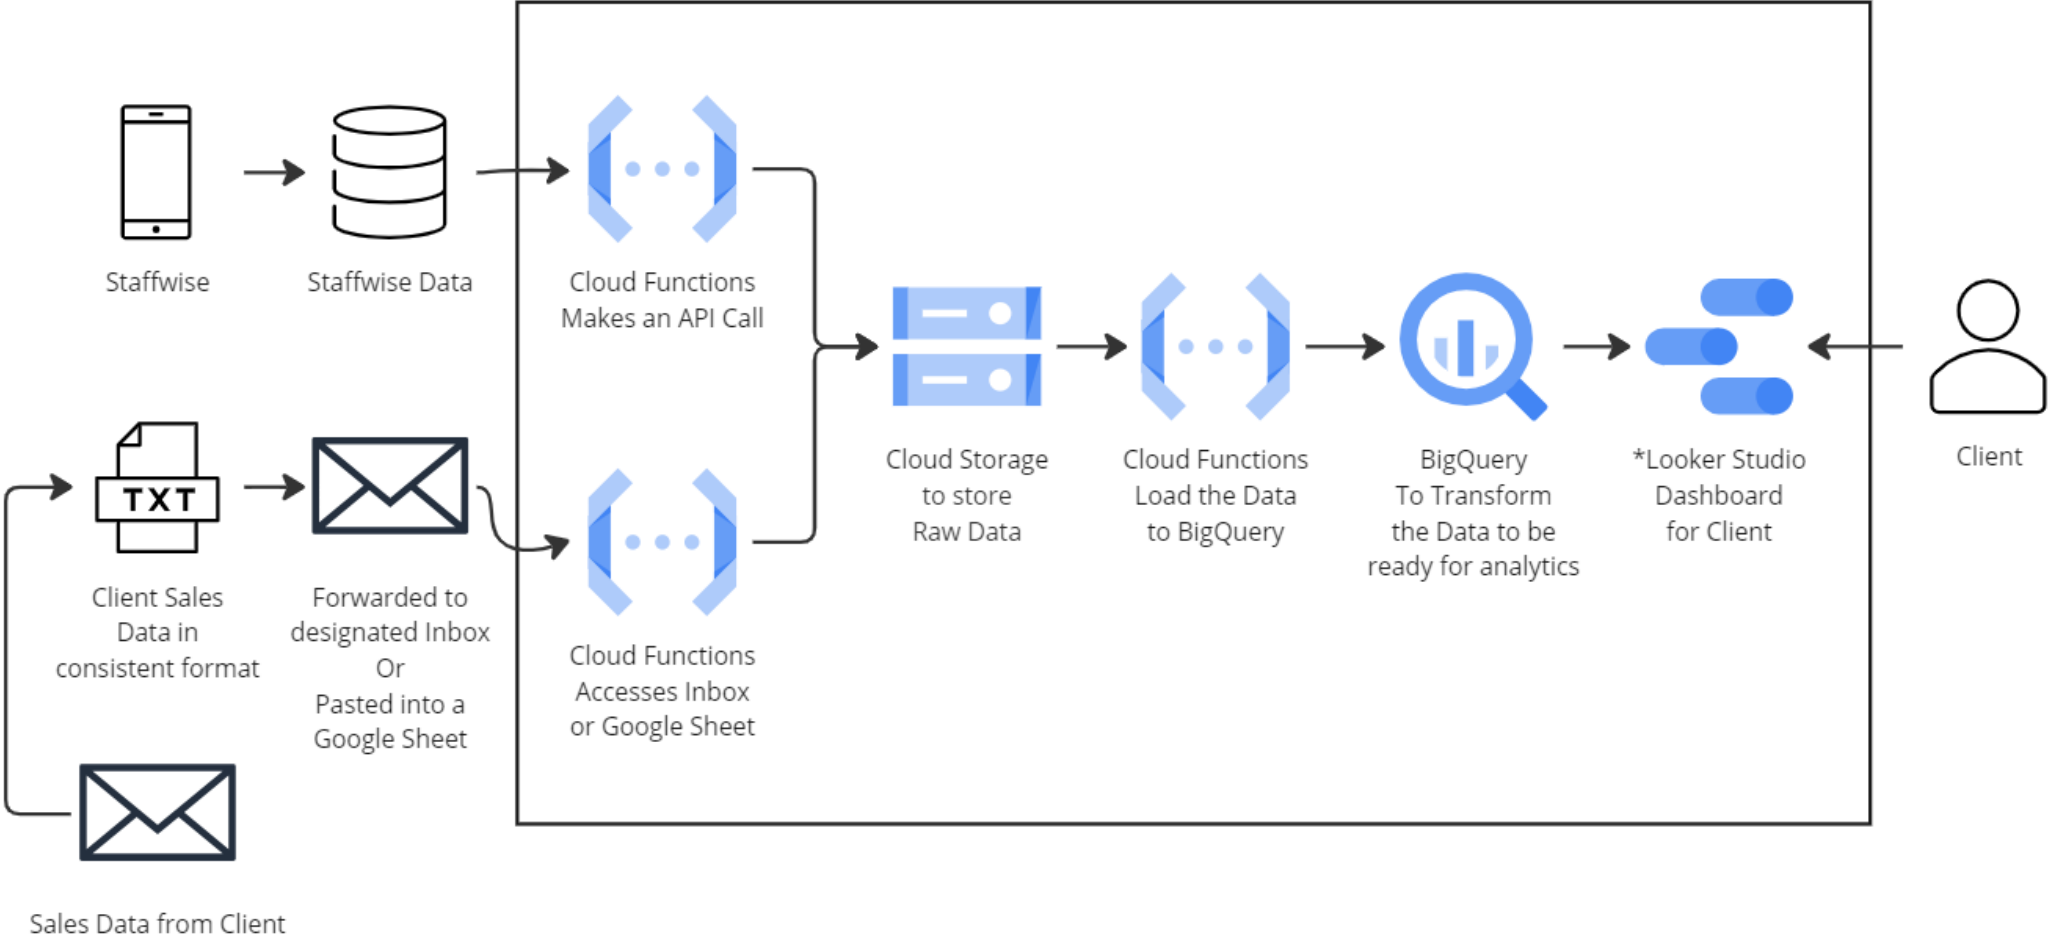

Robust security measures to protect sensitive data and ensure compliance with data privacy regulations.

Performance Metrics

Tracking of key performance indicators (KPIs) and metrics relevant to your business objectives.
